

RIDGEWAY COLLEGE

Louis Trichardt
Grade RR-12

Early Childhood Development Centre

For young children, every experience or encounter presents a learning opportunity. They learn from everything they see, do, hear, feel, smell, and taste; everyone with whom they interact and everywhere they go. Due to our extensive educational programme at the Ridgeway ECD, we provide opportunities for your child's development; from improved social skills and attention spans to an enthusiasm for lifelong learning. Children who receive quality early childhood education are reportedly more confident and curious, which in turn leads to them performing better in grade school. We lay the foundation for shaping their dreams.

Ridgeway Preparatory School

Ridgeway Preparatory prepares students to be responsible, globally-minded, compassionate and reflective learners. Our rigorous academic programme creates space and time for critical reflection on fundamental questions about what is good, fair and just. We teach to the heart as well as the mind. We create an environment where we challenge learners to be creative thinkers and problem solvers and to become lifelong learners. As a registered WESSA school our students participate in our Eco clubs, learn to appreciate our environment and to respect it.

Ridgeway College

At the College we foster leadership, 21st century critical thinking skills and an intrinsic motivation and curiosity to be life-long learners. We equip our pupils to have the confidence and skills to turn their childhood dreams into reality. We pride ourselves on our qualified, competent staff and on the tutor care we offer, on our academic focus, on our diversity and on our superb communication with parents.

WHY CHOOSE OUR FAMILY OF SCHOOLS?

- A modern school with a modern outlook
- IEB examinations (internationally accepted)
- Licensed Google School for online learning
- Community Engagement, Sport and Cultural Programmes
- Dedicated IT Lab, Library, Hall, Physics, Chemistry and Biology labs
- Borehole water, generator and campus WiFi
- Included in our school fees are the amaKhodi coding programme for Grade RR-3 and LEGO Mechanics programme for Grade 4-9 learners.
- Structured afternoon programme until 17:30 for ECD pupils available as well as an Academic Extension Programme at the Preparatory
