

Weekly NEWSLETTER

Message from the Principal

It was time for our Grade 7 learners to attend another development session. Today's topic was "10 years." Each learner wrote a letter to their future selves outlining what they think they would like to achieve on the next 10 years. Having a vision, and a goal with a desire to forge ahead are skills that are critical to their education and development as they enter these crucial teenage years.

Readers are Leaders!

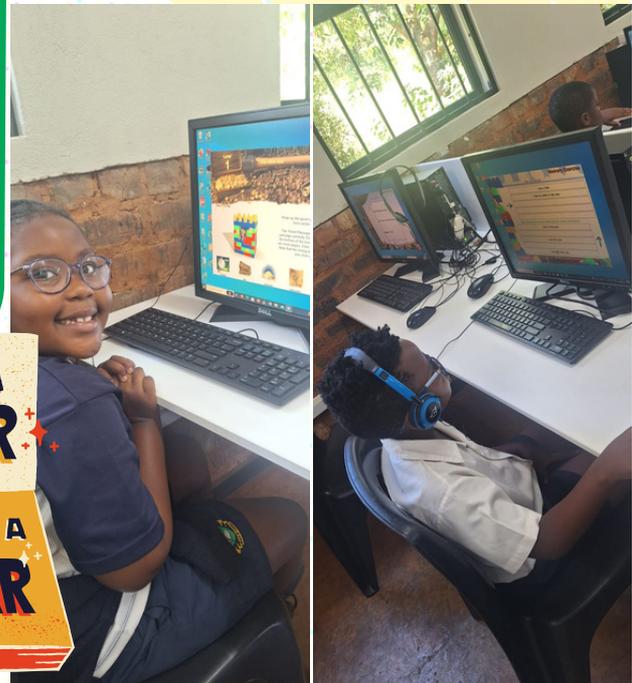

Readers are leaders is our online platform dedicated to creating and sustaining a love for reading in our younger learners. Our children always look forward to spending time in our brand new computer venue and I am confident that soon we will have fluent readers.

Take note:

Extramural activities will conclude on Thursday, February 29. There will be no extramural activities until the end of the term.

Reminder!

Indemnity forms for Intersen phase trips must be returned by Monday, February 26th.

**TOMORROW A
LEADER**

ORATORS EVENING

Our Intersesen phase learners showcased their verbal skills during the orators' evening. Standing and speaking in front of a crowd is something that many adults consider a deep fear, and our children effortlessly excel in this discipline. Well done to all our participants and our many parents that continue to support us.

Welcome!

Grade 3

Welcome to Ms Babadu who is joining our Foundation Phase until the end of the term. I know our children are enjoying Mam's energy and enthusiasm in the classroom.

Lockers Available

Lockers are available for the intersen phase learners and the information is available on D6 if you would like to take advantage of this offer.

CONGRATULATIONS!

It was an incredible week for our athletes who performed on a high level at both events. Our children represented our school with pride. From Vhugala Mafela winning medals for fun to Katlego Ramatsekisa throwing a distance of almost 9 meters in the shot put category, I watched with absolute joy. I know we are going to take this pride into the other events planned for the year.

UPCOMING EVENTS!

4-8 March 2024

**Grade 1 -3
Ecko Gecko Week**

**Grade 4 -7
Educational Trips**
