GOOD DAY PARENTS,

It was wonderful to see our children compete against another school. The weather played along and our children thrived in this arena. It is clear that they benefitted from the competitive nature of sporting events and we remain committed to continually providing events of this nature, weather permitting of course! A massive thank you to our staff for their enthusiasm and endless supply of energy. I'm confident that you realize that an event of this nature requires a lot of organization behind the scene.

ORATORS EVENING

Well done to the Learners who qualified for the Orators evening. It was a wonderful experience and a great opportunity for our learners to thrive in this environment. Thank you to our parents for coming out and supporting this bi-annual event. I am confident that we have a few future world leaders and politicians in our midst. This is encouraging and does mean that we are going to excel in our Eisteddfod competitions later this year. I can't wait!

MATH QUIZ EVENING

Once again, we have hosted another successful Event. Thank you to our Parent Body for their support. Even though this event was hosted by our college, there has been a demand for a similar event hosted by the Prep School. I will communicate a date as soon as one is available. Thank you to our parents for their enthusiasm and passion for the creation of events that attempt to include our community.

LATE PICK-UP

We have noticed that some learners are fetched rather late after the completion of Extra-mural activities. I humbly urge parents to communicate effectively with their respective transport providers with regards to this matter. I am sure you can understand how nervous our little children feel when they are “left behind.” If you are running late (as I can understand meetings and traffic occasionally) kindly communicate with the office so that we can reassure the child. I will be communicating privately with our families that are consistently late so that we can find an effective solution. A reminder as well that school begins promptly at 7:20 every morning and our children are expected to be seated in classrooms by this time.

SPREAD A LITTLE LOVE

As it is the month of Love and in the spirit of giving we would like to make a donation of pet food to the SPCA at the end of the month.
