## Message from the Principal

Echo Gecko week is an exciting week in our yearly calendar that has been a part of our school for many years. It was started as a commitment to developing an awareness of our beautiful surroundings and ensuring that our children are inspired by our unique environment.

While our Intersen Phase learners go on tours to explore various locations, our Foundation phase are engaged in art-based activities as well as many nature-based activities to showcase how fortunate we are to live in this country.

This past week, we used art to beautify our school, had snake safety courses, enjoyed a tour to Polokwane, a water fun day as well as a wonderful go-kart day as we welcomed our ECD learners for their first visit to the Preparatory campus for the year.

Echo Gecko week is always fun and we are proud to uphold this tradition yearly and while we change up the activities through the years, we remain committed to developing an environmental awareness as well as a love for nature and our beautiful school nestled at the foot of the Soutpansberg Mountain Range.

We are all grateful for our passionate teachers for driving this initiative and for all their efforts in ensuring that our children enjoy this special week.
