HEAD'S NEWS

2020

Dear Parents

While we are living with COVID and the consequences thereof, I will send out a COVID update and then a more upbeat newsletter each week. Today was our Orientation Day for our new pupils, most of whom are in Grade 8. We had planned a day of fun and festivities but that changed to a day of Google Training and the distribution of set work books when rumours began that schools would be closed. I am so grateful that we had today to meet these new pupils and to get to know them a little. They are a wonderful group of children who looked super-smart in their new uniform!

Our campus is looking good, with our new signage up. What a pity that it will be a silent campus for a while, without the laughter and tread of shoes to fill our corridors.

Below are some images of the day. Others will be on our Facebook page.

Yours in education

Dionne Redfern
