## Photos of our Sports Day

### The importance of playing sports:

- Organised sport has many physical, developmental, psychological and social benefits for children.
- Playing sport helps children learn to control their emotions and channel negative feelings in a positive way.
- Playing sport helps children build resilience and feel better about themselves.
- Parents play a key role in developing a child's life skills through participating in sport. Thank you to all parents that attended on Saturday.
- To keep your child interested and enjoying sport, make it a positive experience for them. Keep the focus on having fun and being active, rather than on winning.
