## REAL LIFE FOR KIDS

Our Grade 6 learners embarked on a unique programme which introduces real world scenarios, like buying a home, obtaining a drivers license and receiving a salary. The program is online, as well as a physical board game. Check out more pictures on our social pages. It was so much fun watching the learners participate in the auction.

## “EXTRA” EXTRAMURALS

We would like to wish our Juniors and their coaches the very best of luck for their trip to Polokwane this weekend as they compete in their various codes of sport. I’m confident that all the coaching sessions will pay off.

## ADMIN DAY

6 September is Secretary’s Day in our country and whilst we don’t have secretaries, we honoured our Admin Team who fill this role. It is impossible to list what they do daily because they perform such unique tasks ranging from your first point of contact to the printing of tests we write. Even this newsletter and its design comes from the team. Thank you ladies, you are valued! It is such a privilege to work with you!

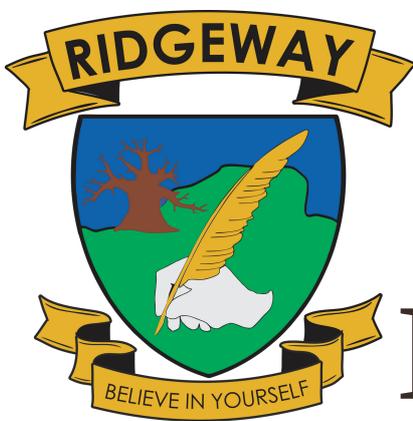

## SUGGESTION SESSIONS

Our Parent Engagement sessions are ongoing. This week our Grade 5 and 6 parents were invited to the ECD to share ideas and suggestions. Your feedback is important to us and we want our school to be the best and the only way we can do that is together.

## ART IN THE PARK

It was an event I will remember fondly. Thank you to our parents, community members, children and guests for their time as we celebrated our children. There were so many valuable donations and I am grateful to our generous parents who always embrace our school and are willing to promote our events. You are appreciated!

## HIGHLIGHT OF THE WEEK

This week in assembly, we focused on keeping our school clean. It was so positive to see our children take pride in our school! Our facility has always been beautiful. Thanks to our Maintenance team who work tirelessly, but now when we all work together to keep it clean, it is even more so.

## SPRING DAY

We welcomed Spring Day with some beautifully unique hats made from recycled materials.

## TESTING TIMES

We are almost at the end of the assessment period and I am confident that our children have worked as hard as they can to produce results that they can be proud of. Behind every test, project and assignment I know that there is a parent, grandparent, aunt, uncle working tirelessly so it's only fitting that you receive the acknowledgement as well. It is not easy completing a day of work and coming home to work on a project or revise History notes, but you do this with grace while supporting our school. Now, let's keep showing our appreciation to each other. After all, "All you need is Love!"
